CLIFFS OF MOHER

- **Cliffs of Moher.** Standing 214m (702 feet) at their highest point they stretch for **8 kilometres** (5 miles) along the Atlantic coast of County Clare in the west of Ireland. Ireland at its most natural, rugged, panoramic and breathtaking. Everything you dreamed that Ireland would be – and more. The beauty of the Cliffs of Moher is that they offer us a totally multi-faceted experience of Ireland’s incredible west coast – as much a historical landmark as they are a geographical wonder, conservation hotspot and area of immense natural richness and importance.

The Burren National Park

The Burren National Park

The Burren National Park is almost 1,500 hectares of uplands in the southeast of the Burren. It is owned and managed by the National Parks and Wildlife Service. The area contains excellent examples of limestone pavement, calcareous grassland, hazel scrub, turloughs and fen. The wide variety of habitat makes this a biodiversity hotspot with birds, plants, lichens vertebrates and invertebrates all being well-represented. From here we move on to the spectacular Cliffs of Moher.
